

**AUTHORISATION AND ACKNOWLEDGEMENT OF TRADING CONDITIONS
WITH QUARANTINE CONDITIONS**

1. AUTHORITY FOR PURPOSES OF CUSTOMS ACT 1901

In accordance with section 181 of the *Customs Act* 1901 (Cth) ("**Customs Act**"), *I / we ("**Customer**") hereby authorise Thornett Nominees Pty Ltd trading as Global Transport Logistics (ABN 45 088 635 492), holder of Customs Brokers Licence number 00022C ("**Company**"), its nominees and/or subagents as may be appointed from time to time, to act as *my / our Customs Broker for the purposes of the Customs Act (as amended from time to time), and for any purpose as required to meet the treatment standards and requirements of the Australian Government Department of Agriculture, Fisheries and Forestry, including the Australian Quarantine Inspection Services ("**DAFF**") for the importation or exportation of any commodities, at all places in the Commonwealth.

2. DAFF TREATMENT STANDARDS AND REQUIREMENTS

- 2.1 The Customer is aware that DAFF imposes strict quarantine standards on commodities that are imported into Australia and exported from Australia. The monitoring of commodities provided by DAFF is necessary in order to protect Australian and foreign agricultural production, the environment, the consumers and human health.
- 2.2 The Customer acknowledges that in order to meet quarantine standards for import or export clearance, DAFF may require the commodities to undergo certain treatments. These treatments may include heat treatment and the use of chemicals such as methyl bromide and ethylene oxide ("**Treatment**"). Please refer to **clauses 4.1 and 4.2** for a more detailed explanation of the Treatment.
- 2.3 The Customer acknowledges that the Treatment may cause the commodities to be affected in such a way that the commodities are no longer suitable for their intended end use.
- 2.4 The Customer accepts that the Company will liaise with DAFF to determine whether the commodity is required to undergo Treatment.

3. A PRUDENT OWNER

- 3.1 The Customer undertakes to be responsible for their own knowledge regarding the quarantine treatment procedures and processes of DAFF. The Customer acknowledges that the Customer has a duty to understand the risks involved. The Customer must access this information for itself and may do so by requesting information in writing from the Company, an independent fumigator and/or DAFF.
- 3.2 The Customer undertakes to be responsible for written notice to the intended recipient of the product, whether it is a wholesaler, manufacturer or retailer, of the Treatment that will be or was undertaken. The Customer also undertakes to ensure that the notice is signed by the wholesaler, manufacturer or retailer acknowledging they understand the Treatment process to be undertaken or that will be undertaken. A copy of this signed notice must then be forwarded to the Company no later than 30 days after Treatment has taken place.

4. INFORMATION AVAILABLE

- 4.1 The DAFF website www.daff.gov.au provides general information on quarantine treatments and standards.

4.2 The contact details for DAFF may be found on its web site www.daff.gov.au.

5. AVOIDING DAMAGE TO THE COMMODITY

5.1 The Company agrees that it will investigate the most suitable Treatment available for the Customer's particular commodity.

5.2 The Customer acknowledges that the Company may undertake the investigation of how the standards and requirements of DAFF will be met with the least detrimental effect on the Customer's commodity by any one of the following means:

- (a) by seeking advice from an independent fumigator;
- (b) by sourcing information from DAFF;
- (c) by arranging for a sample of the commodity to undergo a controlled treatment test; or
- (d) by using past experience as a basis for the decision.

5.3 The Company will carry out investigation with diligence. Where the Company's investigation concludes that the product may be detrimentally affected by the Treatment (meaning the commodity is no longer suitable for its intended use) the Company will advise the Customer of its findings.

5.4 The Customer agrees that in order for the Company to fully investigate the safety and the effect of a treatment on a particular commodity, the Company must have sufficient time to investigate the matter. The Company may estimate a sufficient time and notify the Customer of that time period if requested to do so by the Customer.

6. CUSTOMER'S CONSENT

The Customer acknowledges that an investigation may be required into the need for Treatment of a particular commodity. The Customer authorises the Company to conduct an investigation into whether the commodity must receive Treatment. On completion of the Company's investigations the Company may decide that a particular commodity requires Treatment. The Customer must consent to the Company's selection of Treatments to be undertaken.

7. LIABILITY

7.1 The Company does not accept liability for any damage to the Customer's commodity arising from a Treatment undertaken in order to meet DAFF quarantine standards and requirements or as a result of the Company's recommendation to have an investigation carried out.

7.2 The Company will not be liable for Treatment of the commodity resulting from an incomplete investigation or recommendation by the Company to DAFF, where the Customer did not provide the Company with sufficient time to properly carry out its investigation with regard to the potential effect of the Treatment on the commodity.

7.3 The Company will not be held liable for any acts or omissions that cause the Customer to suffer loss or any acts of negligence performed by the Company, its directors, employees, nominee's and/or subagents performed in the investigation and/or provision of its services.

- (c) any claims made by sub-contractors or third parties concerning the provision of the Company's services in investigating and arranging suitable Treatment for the commodity.

7.5 The Company's liability for any loss or damage resulting directly or indirectly from any act or omission by the Company, its officers, employees, agents, nominees or sub-contractors, in relation to services performed under this Authority is limited to the full extent of permitted by the law.

7.6 The Customer must have or must take out an insurance policy to cover any damage to the commodity caused by a Treatment required in order to receive DAFF's clearance for the commodity to be imported or exported. The insurance policy must cover the full value of the commodity.

7.7 There is no need for the Company to suffer or incur any losses, costs, damages, liabilities, judgments, penalties or expenses before requiring payment from the Customer.
